

2019 Energy Efficiency Programs

Enbridge Gas Inc.

**Coming together
to deliver greater
comfort**

What is the Home Winterproofing/Weatherization Program (HWP)?

- **FREE** Program for qualifying homeowners
- Single family homes occupied by low income earners – detached, semis, row housing
- Community-based organizations contracted to deliver the program

Goal: To reduce energy, lower energy bills, and increase home comfort for qualifying customers

Program Offerings

- Free Pre- and Post- Home Energy Audits
- Attic, Wall, and Basement Insulation
- Draft Proofing
 - Weather stripping, air sealing, etc.
- Showerheads, kitchen and bathroom aerators (Pipe wrap for LUG)
- Carbon monoxide detectors
- Professional Installation
- Free Smart Thermostat

Home Eligibility Requirements

- Greatest energy savings in homes that are **35 years and older**
 - or built in 1980 or earlier- LEG
 - or built before 1975 for LUG
- To qualify, homeowners must:
 - Heat home with natural gas
 - Be a customer of Enbridge Gas Distribution
 - Pay their own natural gas bills

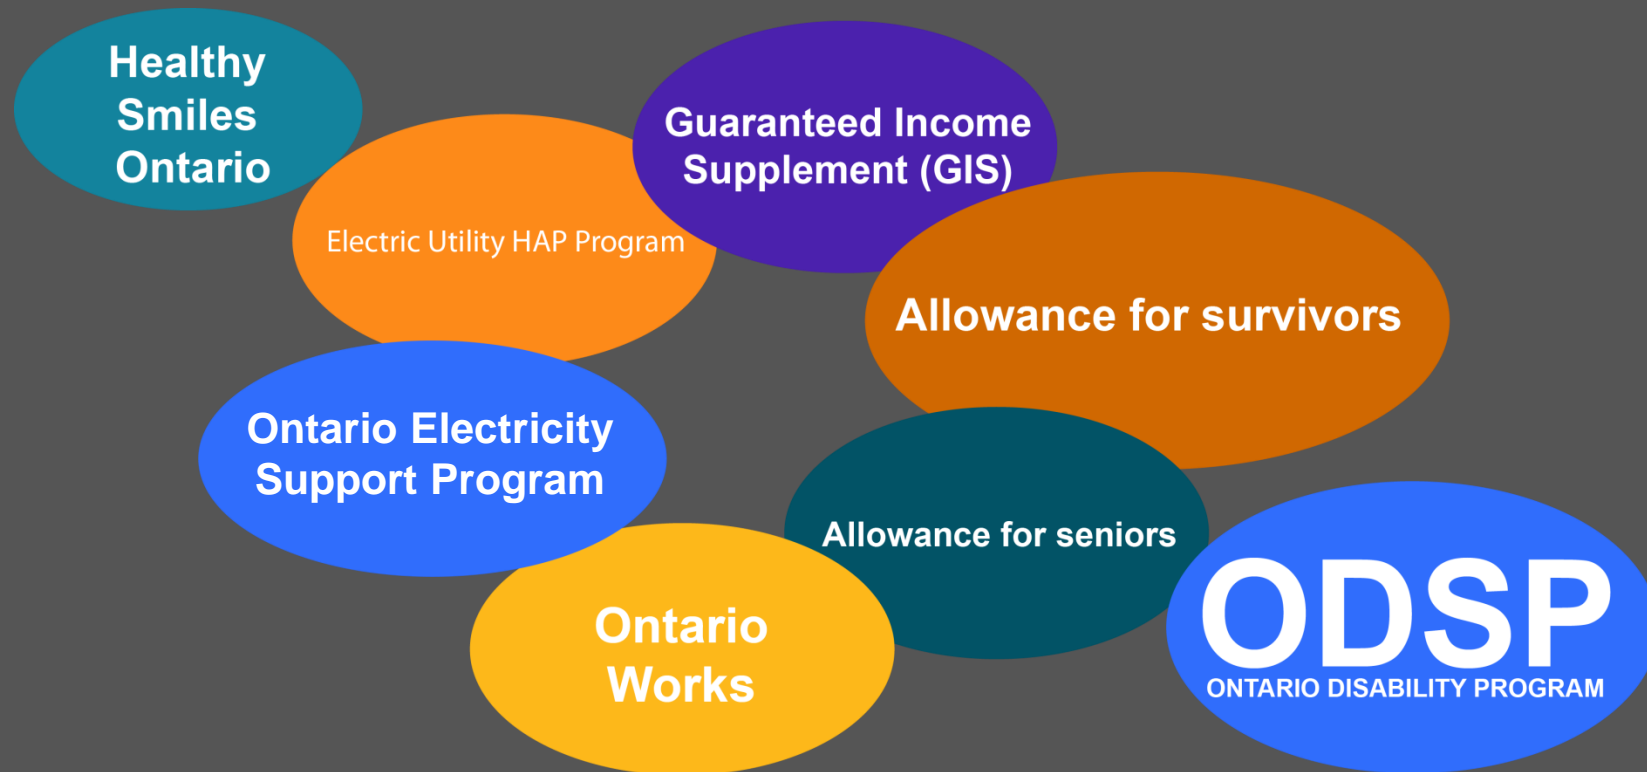

Income Eligibility Requirements

Household income (before tax income of all household members 18 years or older) must be no more than the following (based on the household size):

Household Size	Maximum Gross Annual Income
1 occupant	\$34,206
2 occupants	\$42,584
3 occupants	\$52,353
4 occupants	\$63,563
5 occupants	\$72,093
6 occupants	\$81,308
7 or more occupants	\$90,524

Income Eligibility Requirements

OR: Homeowners qualify if they participate in one of the following government assistance programs:

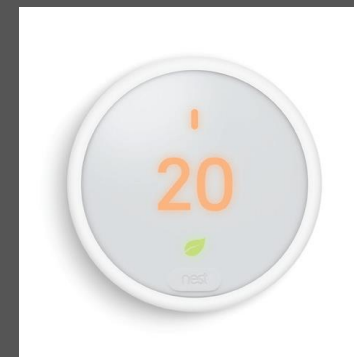

Home Weatherization Program for Indigenous

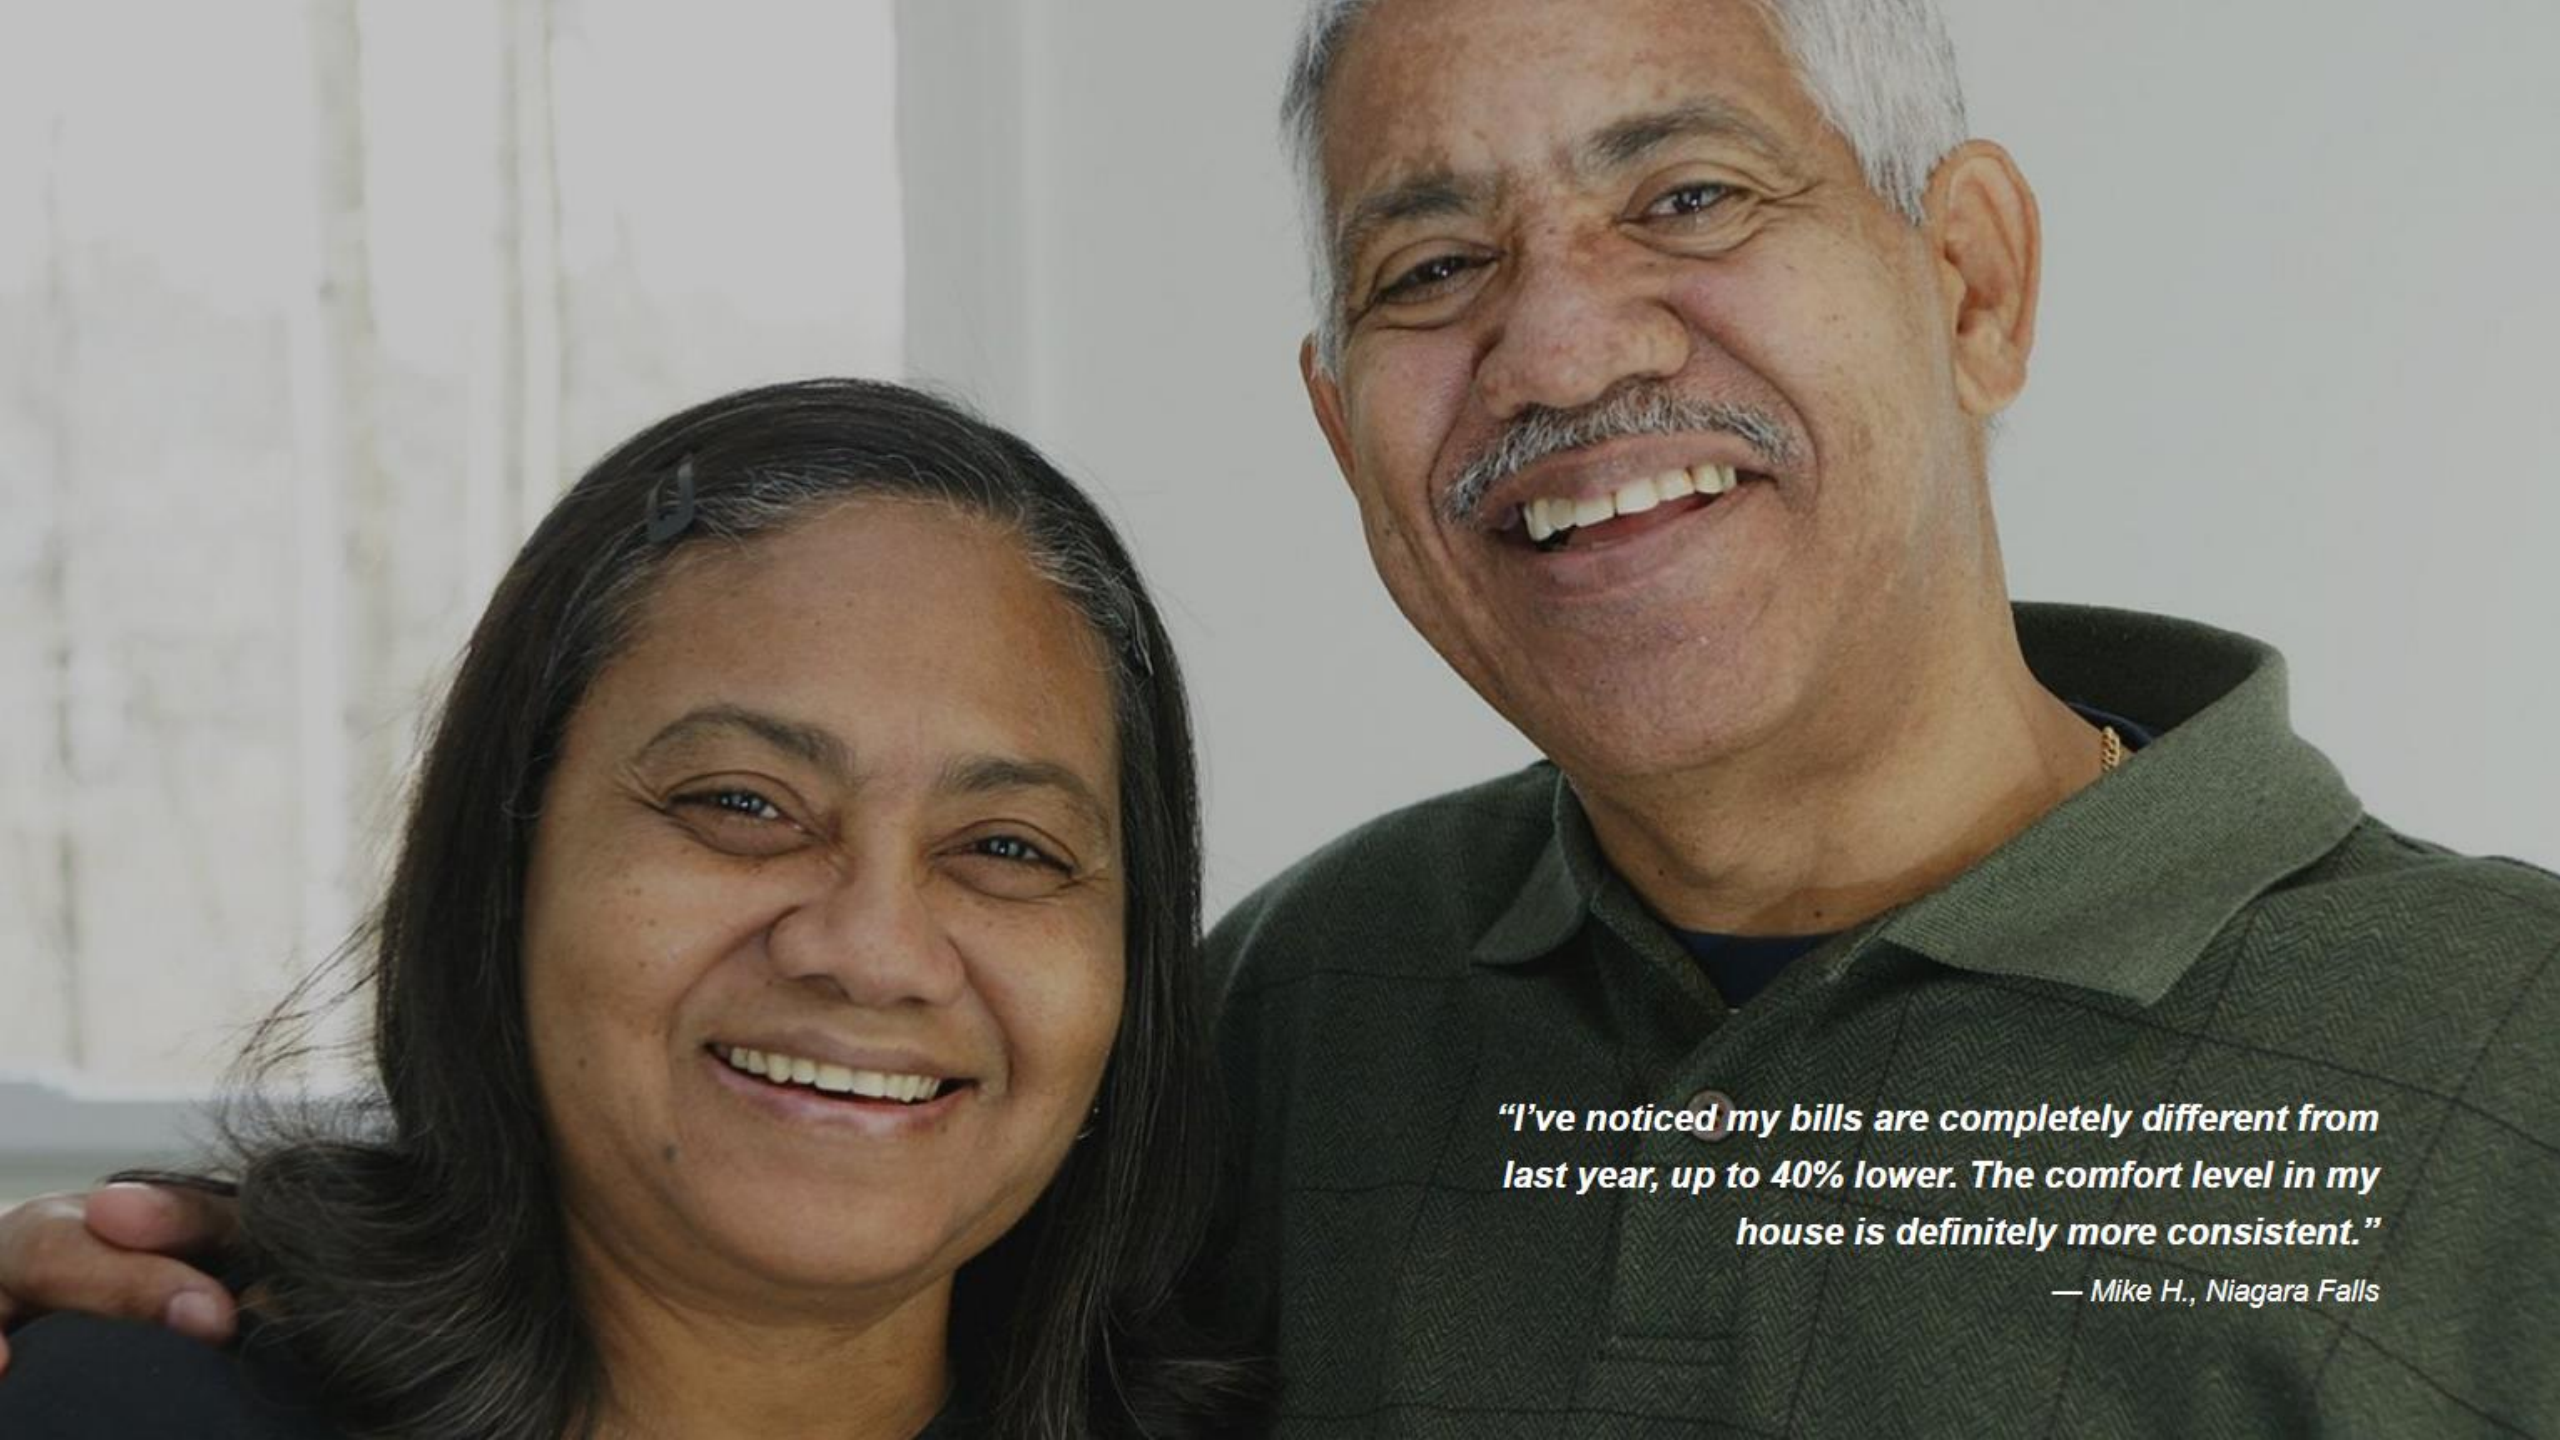

After obtaining endorsement from Chief and Council Union Gas and First Nations Engineering Services Ltd. will work closely with local representatives to launch the program as follows:

- Hire a local community member to act as a Project Lead.
- Hire local community member to assist Project Lead (community canvasser).
- Host a Community Launch Event to educate community members about the program.
- Coordinate income documentation with housing manager/project lead to ease application process.
- Complete all audit and insulation upgrades within a designated timeframe.

Smart Thermostat

- Free Smart thermostats, installation and tenant education available to new and previous participants of Home Winterproofing program
- Includes product demonstration/education for both tenants and staff
 - Tenant instruction at each install – 15-20 minutes
 - Optional staff training available (webinar/in-person/other based on your team's preference)
- Smart thermostat replacing non-programmable thermostat (heating only): 217 m³/yearⁱ
- Smart thermostat replacing programmable thermostat (heating only): 173 m³/yearⁱ
- Thermostats provided and installed by Eco-fitt Corp.

“I’ve noticed my bills are completely different from last year, up to 40% lower. The comfort level in my house is definitely more consistent.”

— Mike H., Niagara Falls
