- Direct Install
- Free 1.5 GPM Showerhead

# OUR COMMUNITY BASED ORGANIZATIONS

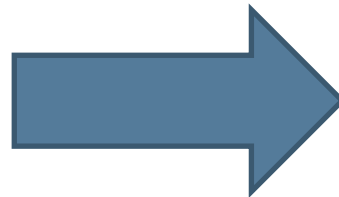

**Green Communities  
Canada**

**Envirocentre**

**Greensaver**

**Globe**

I want to sincerely thank all that were involved in insulating my home. The difference is phenomenal. Even in the recent deep freeze, my heater did not come on half as often as it once would have done. Heat actually stays in the room! It's amazing!

I love that not only do I benefit from this retrofit in both finance and comfort, but the environment benefits as well. I will certainly use less natural gas to heat my home and using recycled newspapers as insulation is a brilliant use of green resources.

Thank you for helping turn my house into such a cozy home.

"I want to give my most heartfelt thanks to all who contributed to my FREE insulation project. The gang from McKay Insulation and EnviroCentre have just left after completing the job. The house feels toasty warm already! I want to compliment your staff who reacted quickly and efficiently from beginning to end. Alastair who did the initial evaluation was charming and very proficient at his task, explaining everything along the way. I'm so happy – I feel like I've won the lottery! Thanks again."

"I am really grateful to Enbridge for their Home Weatherization Program, for this gift of a warmer house, and to GreenSaver for carrying out the necessary work. Your crew – all of them – were great, very hard working, even in that extreme heat. "
